Portfolio

SUMMARY

AI/ML Engineer specializing in Generative AI, NLP, and scalable backend systems. Experienced in building production-ready AI pipelines using LLMs, vector databases, and Flask APIs. Strong background in Retrieval-Augmented Generation (RAG), embeddings, and machine learning deployment.

CORE SKILLS

- **Programming:** Python, SQL
- **AI/ML:** Regression, Classification, RAG, Vector Embeddings, FAISS, Clustering, NLP, Pandas, NumPy
- **Tools:** Git, GitHub, Postman, VS Code, Google Colab, Jupyter Notebook
- **Frameworks:** Flask, FastAPI, REST API Design

EDUCATION

Bachelor of Technology (Computer Science & Engineering) 2022 – 2026

Parul University

12th Standard (GSEB) 2022

Shree Gyandeep Higher Secondary School, Rajkot

10th Standard (GSEB) 2020

Shree Madhav Vidhyalay, Gondal

EXPERIENCE

Equitysoft Technologies Pvt. Ltd Feb 2026 – Present

Internship (Python-AI/ML Developer) Ahmedabad

- Developed and deployed AI/ML-based applications using Python for real-world problem solving.
- Built end-to-end systems integrating machine learning models with web frameworks (FastAPI/Flask) for scalable deployment.
- Worked on data preprocessing, model training, and performance optimization to improve accuracy and speed.

PROJECTS

Password Vault (Secure Desktop App)

- Built an offline password manager with AES-256 encryption and Scrypt key derivation.
- Implemented features like 2FA (TOTP), decoy vault, auto-lock, and security audit system.
- Used Python, Tkinter, SQLite, and PyInstaller for a secure and user-friendly application.

Pothole Detection System

- Built a YOLOv8-based real-time pothole detection system using FastAPI and React.
- Implemented full ML pipeline with OpenCV, PyTorch, and REST APIs.
- Enabled image/video upload with real-time detection and bounding box visualization.

AI Portfolio with Chatbot *Live*

- Built a full-stack portfolio with a hybrid AI chatbot using FastAPI, React, and Gemini API.
- Implemented intent detection, session-based chat history, and lead generation system.
- Used PostgreSQL/SQLite with SQLAlchemy for persistent data storage.

CERTIFICATIONS

- PU Code Hackathon 2.0
- Generative AI
- Tableau Certification
- AWS CloudVerse
- SEBI Investor Certification
